

ELEEXA

PREMIUM OUTDOOR KITCHEN

Our weather-resistant garden kitchens are an excellent choice for people who want to enjoy the pleasure of outdoor grilling all year round. ELEEXA are designed and manufactured to withstand various weather conditions such as rain, snow and direct sunlight. Our outdoor kitchens are equipped with practical shelves and drawers or cabinets that allow you to keep kitchen accessories, dishes or spices within reach.

The bodies and fronts are made of galvanized steel. The tabletop is a 12 mm HPL compact board, with a black core, resistant to sudden changes in weather conditions, retaining all physical and mechanical parameters.

*PREMIUM version: front made of heat- and moisture-resistant HPL (High Pressure Laminate) 12 mm compact with black core.

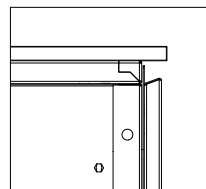

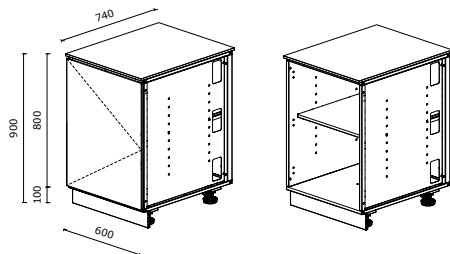

There are 2 variants of kitchen installation. The wall-mounted version is more reminiscent of a traditional kitchen; there is no back panel so you can use a wall as a working space for additional shelves or hooks. The island version is enclosed on all sides and can be placed anywhere, giving 360° access to the countertop surface.

ELEEXA elements are shipped on pallets in pre-assembled modules which need to be connected and levelled.

The warranty covers 2 years.

Dimensions

Cabinet module

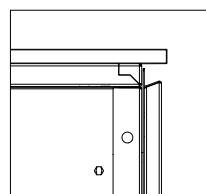

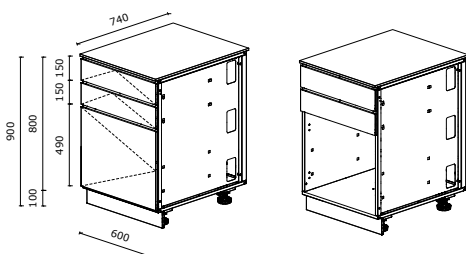

Handle detail

Width	600 mm
Depth	740 mm
Height	900 mm

The module includes 1 adjustable shelf.

Drawers module

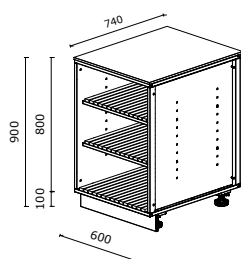

Handle detail

Width	600 mm
